[forgot password](#)[create account](#)

Return the number of times that the string "code" appears anywhere in the given string, except we'll accept any letter for the 'd', so "cope" and "cooe" count.

`countCode("aaacodebbb") → 1``countCode("codexxcode") → 2``countCode("cozexxcope") → 2`

...Save, Compile, Run

```
public int countCode(String str) {  
  
}
```

Show output only (no red/green) ☐[prev](#) | [next](#) | [chance](#) | [CodingBat](#) > [String-2](#)[Forget It!](#) -- delete my code for this problem
